## Fertilizer & Animal Waste - Analysis Price List

### Quality!

Soiltest is committed to providing accurate and precise results in our animal waste and compost analysis. To assure this we maintain a strict daily quality

assurance/quality control program. Soiltest also participates in an Animal waste testing certification program. This is the benchmark we use to assure you that the soiltest

laboratory uses the proper analytical methods needed to give you reliable, accurate and precise data to be used in your nutrient management plan.

#### Additional Testing:

- Soiltest also provides agricultural testing in the following areas:
- Soil
  - Plant Tissue
  - Water
  - Feed/ Forages

Please ask for these additional price lists.

#### Test Groups

##### Total Nutrient Analysis: Liquid and Solids

**FM-1 Basic Test (WSDA Required)** \$50.00  
Moisture/Density, Total N, P, K, NH4-N

**FM-2 Complete Test** \$60.00  
Moisture/Density, Total N, P, K, NH4-N, Ca, Mg, Na, S, B, Zn, Mn, Cu, Fe

##### Available Nutrient Analysis: Liquid and Solids

**FM-3 Moisture/Density, NO3-N, NH4-N** \$27.00

**FM-4 Moisture/Density, NO3-N, NH4-N, P, K** \$32.00

#### Individual Elements

**Moisture/ Density** \$13.00

##### Total Nutrient Analysis: Liquid and Solids

**Total Nitrogen** \$20.00

**Any single Total Element** \$12.00ea  
(nitric/perchloric digest)  
(P, K, Ca, Mg, Na, S, B, Zn, Mn, Cu, Fe)  
**added to a test group** \$5.00ea

**Heavy Metals Digest** \$12.00

**EPA 3050 Digest** \$10.00ea  
(As, Cd, Co, Mo, Ni, Pb, Se, others available)  
**Mercury** \$35.00

##### Available Nutrient Analysis: Liquid and Solids

**Any single Available Element** \$15.00ea  
(NO3-N, NH4-N, P, K, S, B, Zn)  
**added to a test group** \$10.00ea
